1. BACKGROUND INFORMATION

The Energy and Water Sector Education and Training Authority (“EWSETA”) is a statutory body established through the Skills Development Act of 1998 to enable its stakeholders to advance the national and global position of the energy and water sectors in the large, medium, small levy-paying and non-levy-paying companies across the sector.

This was as a result of Government commitment to promote active labour market policies and is demonstrated in the Skills Development Act of 1998 and the Skills Development Levies Act of 1999. As guided by its mandate, the EWSETA is an agent of transformation by promoting employment equity and broad-based black economic empowerment (B-BBEE) through skills development. In this context, the EWSETA is keen to form sustainable partnerships and/or collaborations that will further promote its support for transformation.

As part of its mandate, the EWSETA has the responsibility of conducting research which should inform the strategic orientation of the organisation and continuously improve the overall quality of skills-related service delivery to the energy and water sector.

Thus, the EWSETA has been tasked with the responsibility of conducting research in order to gain deeper understanding of the complex relationship between education and training and skill needs. In the acquisition of further insight, the EWSETA is strengthened as an authoritative organisation for labour market intelligence. Furthermore, SETAs are required by the DHET to establish collaborative research partnerships with public universities in order to strengthen and enhance the sector research effort.

2. ROLE AND OBJECTIVES OF RESEARCHERS

- 2.1 EWSETA is seeking to appoint a suitably qualified and experienced public university or research institution for conducting research to determine the impact of EWSETA “workplace-based learning (WBL) programmes” in line with all requirements stipulated in this terms of reference (TOR). This research undertaking is to commence when the contract is finalised and last until end of February 2021.
- 2.2 The purpose of the research is to ensure that the EWSETA has relevant, up-to-date data and information with respect to the impact of EWSETA WBL learning programmes. Furthermore, the strategic intent of the study is aimed at contributing to the reporting efficiency of the EWSETA with respect to mandated outcomes–related objectives as envisaged in the Sector Skills Plan, Strategic Plan, and Annual Performance Plan of the EWSETA.

3. SCOPE OF WORK

6.3 Stage 3: Pricing and Preference Points

6.3.1 Preference Points

For purpose of evaluating preference points, the following preference point systems will be applicable to all bids whereby preference points shall be awarded for Price; and B-BBEE Status Level of Contribution.

- The points scored in respect of B-BBEE contribution will be added to the points scored for price.
- The following formula will be used to calculate the points for Price:

$$P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

P_s = Points scored for comparative price of proposal or quotation

P_t = Comparative price of proposal or offer

P_{\min} = Comparative price of lowest acceptable proposal or offer

The following table must be used to calculate the score out of 20 for BBEE

B-BBEE Status Level of contributor	Number of points 80/20 system)
1	20
2	18
3	14
4	12
5	8
6	6
7	4
8	2
Non-compliant contributor	0

Bidders are required to submit original and valid B-BBEE Status Level Verification Certificates or certified copies thereof together with their bids, to substantiate their B-BBEE rating claims.

A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but may only score points out of 80 for price; and scores 0 points out of 20 for B-BBEE.

A bidder will not be awarded points for B-BBEE status level if it is indicated in the bid documents that such a bidder intends sub-contracting more than 25% of the value of the

contract to any other enterprise that does not qualify for at least the points that such a bidder qualifies for, unless the intended sub-contractor is an Exempted Micro Enterprise (EME) that has the capability and ability to execute the sub-contract.

19. ANNEXURE 5: SBD 9

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Standard Bidding Document (SBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.
3. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such a system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

5. In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
