### TRAINING

Investigate opportunities for certifications, degrees, and vocational training in water-related fields.

### SKILLS

Find out more about skilled professionals addressing water challenges, from designing sustainable infrastructure to water conservation.

## WHAT SOUTH AFRICA MUST DO TO PREVENT A NATIONAL WATER CRISIS:

**Reduce water demand by 1.2 cubic km by 2035**

Enough water to fill  
**±500 000**  
Olympic-size swimming pools

**Fix water leaks, fix & improve existing water infrastructure**

**36%** of SA's municipal water is lost before it reaches consumers

**Increase treated & reused wastewater**

SA treats **<60%** of its wastewater

**Increase ground-water extraction especially for agricultural sector**

**±63%** of SA's water is allocated to agriculture
